

Coleman to Have

Swimming Pool

At a meeting held last Thursday evening it was decided to go ahead with the swimming pool. The pool will be 125 feet long by 30 feet wide and from 7 feet to 3 feet in depth, and will be erected on the Old Man river where the old swimming hole now lies.

The steam shovel is now at work and it is expected the pool will be ready for the local bathers to take their dip by next week.

Further additions will be added to the pool, such as dressing rooms, etc., for the comfort of its patrons in the course of a few weeks.

The road now leading to the old swimming hole across the C. P. R. tracks will be closed.

Presentation and Dance

The St. John Ambulance Association are having a real letter day in Coleman on Friday, July 30th, in the Coleman Crystal Rink.

The presentation of the Cordree Cup and Medals also Provincial Shield and the McGillivray Coal & Coke Co.'s Cup, will be made to the No. 1 First Aid Team of the International Coal & Coke Co., winners of the various trophies.

The team is as follows:—Capt. G. M. Greenhalgh, A. Kay, J. Kerr, H. Parkinson, J. Glendenning and R. Windley.

After the presentation a big dance will be held in the Arena, admission to which will be free.

Look out for big posters for further particulars.

United Church Notes

The induction service of the new minister of St. Paul's United church was a recent occurrence. The service which was well attended was conducted by members of the Presbytery, Rev. Mr. Garden of Pincher Creek was in charge. The sermon was preached by Mr. Young of Blairmore, Mr. Griffiths of Cowley, gave the charge to the congregation and Mr. Pinder of Hillcrest, an old classmate, addressed the minister. After the prescribed questions as to faith and standards had been answered, Mr. Bevan was received as a member of presbytery by the members present and by the people as their pastor. Mrs. Bevan was presented with a bunch of roses by little Gwen Dunlop. The serving of refreshments by the Ladies Aid brought to a close a very enjoyable evening.

Plans as to date and program for the picnic of the Sabbath school are under consideration and announcement will be made as soon as possible.

Two large camps of young people the C. S. E. T. and C. G. I. T. have been held at Lee Lake recently, an ideal spot for the purpose. The Lethbridge district girls camp has now closed, the final big meeting being held on Sunday afternoon. The service was conducted by Miss Kerr, the camp director. The address being given by Rev. H. J. Bevan of Coleman. A party of girls from Bellevue take possession of the camp this week.

Success of Coleman Man

Notification has been received from the Minister of Mines that H. Wilton Clark, Bach Science in Mining Engineering, and now employed at the International Coal and Coke Company, was successful in passing the mine manager at the recent examination held at Blairmore.

I. O. O. F. Installation

The installation of officers of Lodge No. 36, I. O. O. F. took place on Monday last. In the absence of the District Deputy the induction was conducted by P. G. Bro. W. Burrows assisted by several visiting brothers from Nordège.

The officers installed were as follows:—

N. G., Bro. Harry W. Clark.
P. N. G., Bro. H. Olson.
V. G., Bro. Nelson.
Rec. Sec., Bro. Vincent.
Fin. Sec., Bro. VanMarzon.
R. S. N. G., Bro. W. Burrows.
L. S. N. G., Bro. W. Burns.
R. S. V. G., Bro. Nelson.
I. G., Bro. C. Groate.
Chaplain, Bro. J. D'Andrea.

Coleman Tennis Club

In a regular interclub fixture held on Wednesday last week the Blairmore United Church Tennis Club won from the Coleman Club by six events to four. Owing to the fact that several of the visiting team were hurt when their car collided with another while on the way to play, some re-arrangements in play were necessary and only ten events were played instead of the usual eleven. Coleman has now won two matches and lost three.

Following are the results:—
Ladies Singles: Mrs. Purvis beat Miss Howe 6-2, 8-6. Miss Penman beat Mrs. A. E. Graham 7-9, 6-3, 6-4.

Ladies Doubles: Mrs. Purvis and Miss Henson lost to Misses Howe and Wallace 6-4, 6-2.

Mixed Doubles: Miss Howe and Rae beat Mrs. Purvis and Barnes 6-3, 6-2. Mr. and Mrs. A. E. Graham beat Miss Penman and Anderson 7-5, 8-6.

Men's Singles: Anderson beat McDonald 9-7, 6-4. Alfred McKay beat Everett Price 6-1, 6-2. Ray beat Lindoe 6-2, 6-3.

Men's Doubles: Barnes and F. Graham beat Decoux and McKay 6-1, 7-5. Lindoe and Galbraith beat Dutil and Dicken 4-6, 6-3, 6-2.

Say It With Flowers

When you require flowers artistically arranged for any occasion, at moderate prices, and of unequalled quality, phone No. 13, THE COLEMAN TRADING CO., LTD., agents for Fradco Bros., Lethbridge, advt.

LOCAL, PERSONAL AND GENERAL NEWS

Mrs. Rankin arrived in Coleman from Scotland on Friday to join her husband, Mr. W. Rankin.

Mr. and Mrs. S. Brocklehurst, of Calgary, who are motoring through to Vancouver, spent last Saturday in Coleman visiting their son Mr. A. Brocklehurst.

The Salvation Army express their deepest thanks to the citizens of Coleman who drove the children to and from the Crow's Nest lake for their annual picnic on Wednesday of last week. Every member of the picnic party enjoyed the trip and the day was spent in full of interest for the kiddies. The children will long remember their trip to the lake. Thanking you one and all.

Yours faithfully,
Capt. Chas. Watt, C. O.

Alberta Premier Coal Producer

During 1925 Canada produced some 13,134,968 tons of coal, valued at \$19,261,951, according to a report issued by the Dominion bureau of statistics. Alberta held the premier position with an output of 5,869,031 tons, which was 679,302 tons above 1924 production. British Columbia showed a slight advance of 2,842,252 tons in 1925. There were 25,082 people, including 1,542 salaried employees, engaged in or about the mines during 1925, to whom \$33,200,809 was paid in salaries and wages.

Mrs. R. Easton left last week for Midlandvale, Alta., where she will visit with her daughter Mrs. M. Morrison.

Mrs. H. Wilton Clark and daughter, left on Monday for Didsbury to spend a few days visiting with her people.

Mr. W. Read of the C. P. R. staff, left on Sunday with his family for points in the States.

Mrs. Kilgannon returned to Coleman on Monday last after spending several days visiting at Calgary and Gleichen.

Mr. John Boyce, of Nanton, arrived in town on Monday and will spend a short vacation visiting at his parental home here.

At a meeting of the Miners held last Sunday, Dr. Borden, of Daysland, Alta., was chosen to take the place of Dr. Tolmie, who is leaving Coleman next month.

Mr. Geo. Kellock left on Sunday last to join his family at Vancouver.

Mr. Ross Tolmie, of Vancouver, arrived in town last week to spend a short time visiting with his father, Dr. Tolmie.

Gold Rush Near Timmins

A placer gold rush is said to be in progress ten miles out of Timmins on the banks of the Grassy river in Ogdon and Priestownships, Ontario. The first claim was staked in April last and now that the news has leaked out scores of prospectors are engaged in surveying the area and 45 claims have been recorded at the recorder's office in Timmins.

Mrs. A. O'Neil was a visitor to Banff for a few days last week.

Mr. and Mrs. J. Hadfield left Sunday night for a two months vacation, visiting points in the Eastern provinces.

Master Sidney Morrison, of Midlandvale, Alta., is the guest this week of Mr. and Mrs. Charlie Graham.

Mr. Frank Graham, of the local post office staff, is on a two weeks' vacation.

Mr. G. Brown, of the C. P. R. staff, is back on the job again after spending a two weeks vacation.

An auto accident occurred on Wednesday afternoon of last week near the West Canadian Collieries offices, Blairmore, when a car driven by Miss Vera Kafoury collided with another driven by Charlie Hill. Fortunately the occupants of both cars escaped with minor injuries. The Kafoury car, however, was badly damaged, both front wheels being taken off and the front end badly smashed.

Wins Girls Scholarship

The scholarship offered by Hon. Geo. Hoadley, Minister of Agriculture, to the member of the girls' clubs of the women's institutes of Alberta accomplishing the best work during the year, has been won by Miss Neva Daly of Munson. The scholarship provides three months' free course at one of the agricultural schools in domestic science.

Employment Increases

Considerable improvement over employment conditions of last year is noted during the present season. During the last six weeks the government employment bureau has placed from 200 to 250 more per week than for the same period last year. In order to make plans for the harvest season, a conference of the western passenger association with representatives of the western provincial governments will be held the coming week at Winnipeg.

Mrs. I. Ferguson and daughter Chrisis of Coalhurst, are visiting in Coleman with her sister Mrs. J. Ballock.

The Coleman children and friends of the Salvation Army Sunday school held their annual picnic on Wednesday of last week at Crow's Nest Lake, officer Capt. Watt in charge. Trucks and cars were packed with eager kiddies, expecting a good time. Arriving at the lake, the children from Crow's Nest Sunday school joined the Coleman children, and a rollicking good time was spent. Refreshments, candies and fruit were served to the goodly crowd of one hundred and ten people present.

Pool Members go to Australia

For the purpose of advising Australian wheat growers on the formation of a wheat pool, members of the Canadian wheat pool will go there during the present month. The Alberta representatives will be H. W. Wood, president of the Alberta Pool, and Geo. Melvor, sales manager for Alberta. The party will also visit the Orient to study market conditions and will be away for four months.

Messrs J. Lonsbury, J. Downie, A. Lonsbury, T. Holstead and W. Lonsbury, spent the week-end at North Fork. They report a full catch of lovely trout.

Mr. A. Brocklehurst returned last Friday from a week spent in Calgary, where he took out himself a life partner.

Roads Convention for Alberta

The annual convention of the Canadian Good Roads Association will be held at Edmonton, Alberta, some time in September, the exact date to be announced shortly. Members of the executive committee of the association visited the province recently to arrange for the convention. About 700 delegates are expected to attend.

Mr. H. Young, Jack Price and Angus Cameron returned Sunday after spending a week at North Fork-fishing. They report a splendid catch of fish, while Angus Cameron caught a trout weighing 2 lbs 7 1/2 ounces.

McGillivray Boarding House and Coleman football teams met last Saturday evening in a game, the latter winning by the score of 5 goals to 2.

Big Tourist Traffic

More than 4,000 tourists have registered at the Calgary auto camp since July 1st, according to figures compiled there. Many of these tourists have gone on to the summer resorts in the mountains of the province.

He had spoken to her on the street and she was properly insulted. "I don't know you from Adam!" she exclaimed indignantly.

"You ought to," he retorted mildly. "I'm dressed differently."

The officials of the fish and game society of Bellevue, received from the hatcheries at Banff last week, 15,000 fry which were put in the different creeks in the district. Bill and John Kerr, Charlie Rey and Matt Jasek were the principal workers in putting them in the creeks.

Big Attendance at Exhibitions

The total attendance at Calgary stampede was 197,000, which was nearly 20,000 greater than last year. At the Edmonton exhibition and historical pageant last week, record attendances have also been realized, more than 100,000 attending during the week.

Fall Wheat Cutting

Cutting of fall wheat started in southern Alberta during the present week. The second cutting of Alfalfa has also started.

Historic Coldstreams Band in Canada

(1) Band Grouped Prior to Sailing for Canada.

(2) Lieut. R. G. Evans, Director of Music to the Coldstream Guards.

The band of the famous Coldstream Regiment, the 1st lineal descendant of the "New Model" first Regular Army, which was raised and organized by Oliver Cromwell, are touring Canada this summer under the direction of Lieut. R. G. Evans. The Lord Mayor of Liverpool was on the dock when the band embarked on the Canadian Pacific liner "Montcalm" amid the cheers of thousands of people.

Arriving in Quebec on June 25, the band proceeded on their way West, where they will fulfil a number of engagements at the Brandon, Saskatoon and Regina exhibitions, and the Calgary Stampede. Their tour will probably extend as far as the Pacific Coast, including, also, visits to Vancouver and Winnipeg. Returning in the fall, the band will play at the Toronto Exhibition, and embark for home on the "Empress of Scotland" on September 16.

The last visit paid to Canada by the Coldstream Guards Band was in 1911, under the direction of Lieut. Col. Mackenzie-Rogan, one of the Regiment's most famous bandmasters, who enlisted as a band boy in 1867 and rose to be Director of Music to the Coldstream Guards and Senior Director of the Brigade of Guards. When Col. Mackenzie-Rogan took charge of the band its total strength was thirty-four performers, but when he handed it over to his successor, Lieut. Evans, in 1920, the band establishment was sixty-six.

SASKATCHEWAN FARMERS DECIDE TO AMALGAMATE

Saskatoon.—The Saskatchewan Grain Growers' Association and the Farmers' Union of Canada in Saskatchewan, by resolution passed at the convention here, have agreed to amalgamation.

Many dramatic scenes have been enacted at conventions of the grain growers in past year, but it is safe to say records contain no entry parallel to the scene that unfolded itself as fusion actually took place.

As the formal resolution was presented which would give effect to the desire of the delegates for fusion there was a silence broken only by the chiming reading motions.

"Are you ready for the question?" was asked.

A second or so pause and from the hall came a voice, "Question," the vote was taken. Again there was silence. Then the cheers broke out. Ladies waved their handkerchiefs and deep husky voices roared out cheers. The strain was over. Amalgamation was consummated.

The formal resolution consummating union, read as follows: "Resolved that we, the Farmers' Union of Canada and the Saskatchewan Grain Growers' Association, in joint convention assembled, hereby jointly approve of and adopt the basis of amalgamation as agreed upon in separate convention, and authorize and instruct the board of trustees appointed in pursuance of section 10 of the said agreement and our respective boards and executives to make the necessary arrangements, including the procuring of all necessary legislation to consummate the said amalgamation."

Executions In Turkey

Thirteen Men Are Hanged In Plot Against Mustafa Kemal Pasha.

SMYRNA, Asiatic Turkey.—Thirteen men, six of them members of the Turkish Parliament, were hanged at the street corners along the waterfront at dawn for conspiring to assassinate their president, Mustafa Kemal Pasha. All died protesting their innocence.

Djamal Bey, former minister of the interior and one of the leading members of the Union Progress party, warned his executioners that the wholesale hangings would bring misfortune to New Turkey. His speech was cut short by the noose.

Among those hanged were: Chukri Bey, deputy from Esmir; Zia Huch Bey, a former deputy, and Ruch Bey, deputy from Erzurum. Evidence was adduced at the trial to show that the plot was conceived last December by a group of individuals closely associated with the opposition party.

Winter In Argentine

Buenos Aires.—The southwestern region of Argentina is experiencing what has been described as one of the severest winter in the last 25 years. Snow has been falling in some sections for more than a week, paralyzing all activities and causing a food shortage at some points. The temperature has fallen eight degrees below zero.

To Contest Every Ontario Riding Toronto.—While there was no official statement forthcoming at the close of the meeting of the management committee of the Liberal Association here, it was said that decision to run a Liberal party candidate in every Ontario riding was unanimously reached.

Probe Sassy Claim

Rome.—Two pamphlets have been appointed a committee to determine whether the Hon. Violet Albin, G.M., sister of Lord Ashbourne, was mentally irresponsible either partially or totally on April 7 when she shot and slightly wounded Premier Mussolini.

Philippines Want Independence Manila.—The national supreme council, representing the combined Filipino political parties, has decided to ask the Philippine legislature to adopt a resolution reiterating the desire of a Filipino people for immediate and absolute independence.

Winnipeg City Clerk Dead Winnipeg.—Charles J. Rova, city clerk, Winnipeg, for 42 years, and one of the oldest pioneers in Manitoba, died here, aged 71. He had been ill several weeks.

Harvesting Fall Wheat Lethbridge.—Fall wheat harvesting began here on the farm of C. Bedell at Taber. Second cutting of alfalfa began on the same farm a week ago.

Good Roads Convention

Plan to Hold Dominion Meet in Edmonton in September. Preliminary arrangements for the annual convention of the Canadian Good Roads Association in Edmonton during the coming autumn have been made between officials of that organization and the Provincial Government. S. L. Squire, deputy minister of highways for Ontario, and William Flaherty, Toronto, both members of the executive of the association, were in the city and conferred with Premier Brownlee and Hon. Alex. Ross in regard to the coming event.

The date for the convention has not yet been set but it will be toward the end of September. The exact date will be announced later by the Good Roads Association. About 700 delegates from all parts of Canada are expected to attend, and the meetings will run into three days. Western road problems will be features of the programme and a number of addresses and papers will be given on questions of particular interest to road builders and road users in Alberta.

Coal Strike May Continue

Winston Churchill Is Not Hopeful of An Early Settlement.

London.—Winston Churchill, chancellor of the exchequer, addressing a meeting of London bankers, thought the coal crisis would probably continue for some time longer. Although it was producing grave and deepening effects on the general economy, it was a remarkable fact, he noted, that neither the general trade nor the general finance of the country had yet suffered nearly so severely as had been expected since the strike began. The brunt of the strike was falling on parts of the country where trade unionism was the most powerful.

Empire Wireless Delayed

System Expected To Be In Operation Before the End of the Year.

London.—The postmaster-general has announced in the House of Commons that there had been some delay in completing the imperial wireless beam stations utilizing the Marconi system of directional sending. It was probable, he added, that the stations permitting communication with Canada, South Africa, Australia and elsewhere would be operating before the end of the present year.

Clinic For Indian Babies

Port Qu'Appelle.—In the interests of Indian child welfare, Dr. H. C. Hall, of Port Qu'Appelle, is giving effect to the department of public health, held a clinic of Indian babies, July 13, at Ashley Point, about ten miles west of Port Qu'Appelle. Dr. R. G. Ferguson, medical superintendent of the medical staff at the san, attended. In all, sixty-seven babies were examined.

Steamer Abandoned

London.—A Lloyd's dispatch from Jibuti, East Africa, says the French mail steamer Fontainebleau is afloat and has been abandoned. The passengers and crew were saved, together with a small amount of cargo. The mail was lost. The search states the steamer is expected to be destroyed.

New Elevator For Port Arthur Port Arthur.—On arrangements have been completed under terms of an agreement with the city for property and street approaches for the Northland Elevator Company to build a 1,500,000-bushel plant in Port Arthur next season.

Wins International Scholarship Ottawa.—Miss Isabel Stewart Maryson, of Rockham, Sask., has been awarded an international scholarship and sails for England this week. She is a Canadian, a B.A. of the University of Saskatchewan and a graduate of the Presbyterian Hospital of New York city.

Denial Is Made

Lisbon.—Official denial has been made of a report published in Paris that General Gomes de Costa, deposed dictator, had been liberated by the crew of the cruiser Carvalho Azevedo, on which he is being taken to exile in the Azores.

Building More Motorships

London.—The remarkable development in construction of motorships is being outstanding feature of Lloyd's shipping returns for three months ending June 30 which were published here.

Advance Polls

Ottawa.—Advance polls will be provided for the accommodation of seamen who expect to be absent on polling day in the forthcoming election. Capt. C. M. Biggar, chief electoral officer, announced.

Omen Of Good Luck

Supporters of Meighen in Ottawa Think Thirteenth Lucky Date For Government.

Ottawa.—Is the thirteenth of the month a lucky or unlucky date on which to form a government?—Just thirty years ago, July 13th, the late Right Honourable Sir Wilfrid Laurier formed his administration. He, himself had been sworn in as president of the prime council two days previously. His government retained office for fifteen years, going out of power in the reciprocity election of 1911.

Supporters of the new Meighen Government point to this as an omen of good luck for the present administration.

Stop Sunday Dancing

Move to Forbid Public Dancing in Ontario On Sundays.

Toronto.—A definite decision forbidding public dancing in the province of Ontario on Sundays was made by Hon. W. F. Nickle, attorney-general, who stated that it would not be necessary for municipalities to refuse licenses to places where it took place. Nickle is certain now that dancing in public places can be stopped by provincial statutes.

The attorney-general made his pronouncement following the hearing of a deputation from the city council of Niagara Falls, Ont.

FINANCIAL CRISIS IN EUROPE IS CAUSE OF ALARM

Brussels.—Three virtual dictatorships loom in Europe as a direct outcome of the financial crisis.

The Belgian Chamber of Deputies adopted on first reading a bill which would give King Albert full powers to issue such decrees as he may see fit for stabilizing the exchange.

The French minister of finance, M. Caillaux, will submit a similar bill to the finance committee of the French Chamber.

Meanwhile, Italy is discussing whether Premier Mussolini and his cabinet should be made responsible to the king and not to the legislature, thus giving them extreme authority to deal with the situation.

The French financial crisis apparently has been outside only by Belgium, whose franc is rapidly declining in value.

Institution of a new gold basis currency is understood to be the principal remedy upon which governments, experts pin their faith to extricate Belgium from the financial morass, into which she has fallen. Steps to introduce it will be taken as soon as possible after the Pull Powers Bill has become law.

Globe Circling Record

Evans and Wells Circumnavigate Earth in Less Than 29 Days.

New York.—More than a week was left from the time in which man can circle the earth, says Edward S. Evans and Linton O. Wells arrived at the Pulitzer building here. They left on their world circling race against time at 1:30 a.m. June 16, making their elapsed time 28 days, 14 hours. The previous record of 35 days, 21 hours and 35 minutes was made in 1912 by John Henry Mears.

Strapping Scots for the Prairies

"We will do our best and try to make good." With these words the two, pictured above, stepped aboard the Canadian Pacific S.S. Montrose bound for Canada where they will take up farming. They are all well-built Scots boys and are in the best of physical condition for the laborious work west. These strapping youths were very optimistic and anxious to commence the first day of their long journey. From left to right the photograph shows: Captain C. A. Allen, Canadian Government Agent; and the six sturdy Scots lads: E. Ferguson, Edinburgh; A. Bryde, of Heinsburg; A. McCole, D. Robertson and J. McCole, of Glasgow; and W. Thomson, Castle Cay.

SAPIRO MAKES PLEA FOR UNITY AMONG FARMERS

Saskatoon.—"My sermon to you tonight is this: Let nothing stand in the way of uniting your farmers' organizations. That is my message to you tonight."

In these words, Aaron Sapiro, co-operative marketing expert, gave to the people of Saskatchewan the message he had come thousands of miles to deliver.

In the presence of hundreds of people, crowded together, Mr. Sapiro pleaded with all the power at his command with the farmers of Saskatchewan to consummate union during their next convention.

Mr. Sapiro had lost none of his magnetism. From the moment he rose to his feet until he sat down an hour later his vast audience literally hung on his words and listened eagerly to the message he brought.

"The last time I spoke to you I held out the example of the U.S.A. in co-operative marketing for you to follow. Tonight I tell you of the failure of some of their wheat pools in order that you might profit by their example and not fall into their ways," he said.

Mr. Sapiro plainly expressed his opinion of the workings of some of the co-operative organizations in his own country. He held up the tragic career of some of them as examples of what results, when, as he put it, the true co-operative spirit is lost.

He said with you tonight not to lose that co-operative spirit. In two years you have made yourselves the envy of the whole world by reason of what you have accomplished by means of your pool. I shall not rest content until you have fostered that spirit to the extent that on every Saskatchewan farm, in every Saskatchewan home, there shall be the true spirit of co-operation, the cooperation of human life as you have cooperated in wheat.

When the evening's meeting opened, Dr. Walter Murray, president of the university, took the chair. Followed by the civic ceremony of making Mr. Sapiro a freeman of Saskatoon, A. J. McPhail briefly spoke of the wheat pool and without further delay Mr. Sapiro addressed the audience.

The vast audience rose en masse and Mr. Sapiro was formally introduced and at the close of his address was greeted by Dr. Murray as a fellow citizen from whom he called for British cheers and tigers.

New Governor-General

Viscount Willingdon Will Likely Be Sworn In At Quebec.

Quebec.—Viscount Willingdon will be sworn in as governor-general of Canada as soon as he reaches Quebec, it is believed.

The ceremony of administering the oath of office to the governor-general was performed in the ancient capital in the cases of the Duke of Devonshire and Baron Dufferin and the belief here inclines to a continuance of this procedure.

Many Treated For Rabies

Montreal.—One hundred and forty-seven cases have been treated in the rabies clinic at the Royal Victoria Hospital since the outbreak of the rabies epidemic. Some of the cases were serious, patients having large lacerated wounds, while in some instances they had been bitten through the muscles.

Forest Fires Take Heavy Toll

Nine Lives Are Lost In Conflagration In Mountains.

Calgary.—Leaving a trail of nine deaths, forest fire have been ravaging the Pacific Northwest for the past few days.

Trapped in a motor car, between Banff, Alberta, and Windermere, B.C., two women and two children were burned to death this afternoon. The dead, Mrs. Leslie Watts, her two children, and Mrs. Clifford Nesbitt, all of Dunsair, Sask., were returning from an automobile trip to the coast.

The women were accompanied by their husbands, Leslie Watts and Clifford Nesbitt. The men were badly burned about the face and arms and are in hospital at Invermere, B.C. According to a report by Corporal Taylor, of the R.C.M.P., who investigated the scene of the tragedy, the party, who had been warned at the west entrance of Kootenay Crossing, turned around in the road when they saw that the flames were sweeping down upon them.

Imperial Conference

No Reason To Think That Meeting Will Be Postponed.

London.—The Daily Telegraph says the rumors which have been prevalent here for the past few days to the effect that the Imperial conference would be postponed because the Canadian situation is unfavourable, are unfounded. The Canadian authorities have not requested that the date for the convening of the conference be set back and there is no provision to believe that representatives of the Dominion will not be in attendance, the paper declares.

No Rust Damage

Saskatchewan Has Escaped Black Stem Rust To Date.

Saskatoon.—No indications of black stem rust have been found in the province to date, according to a statement issued by Dr. G. H. C. Sanford, in charge of the Dominion laboratory of plant pathology, at the University of Saskatchewan.

Light infections of leaf rust have been reported, but inasmuch as this form of rust is not of a very serious nature, it is not likely that any great damage will result.

MEIGHEN'S NEW CABINET NOW ASSUMES OFFICE

Ottawa.—The following ministers attended on his excellency the governor-general, and accepted office in the new government:

Rt. Hon. Arthur Meighen, prime minister, secretary of state, foreign affairs, and president of the privy council.

Hon. Sir George Prety, secretary of state.

Hon. R. B. Bennett, minister of finance.

Hon. E. L. Patterson, minister of justice.

Hon. Hugh Guthrie, minister of national defence.

Hon. H. H. Stevens, minister of customs.

Hon. S. F. Toimie, minister of agriculture.

Hon. W. A. Black, minister of railways.

Hon. R. J. Manion, postmaster-general.

Hon. J. D. Chaplin, minister of trade and commerce.

Hon. George B. Jones, minister of labor.

Hon. E. B. Ryckman, minister of public works.

Without portfolio: Hon. Sir Henry Drayton, Hon. Donald Sutherland, Hon. R. D. Norad, Hon. John A. MacDonald.

The portfolios of marine and fisheries, the interior, immigration and colonization, health, and soldiers' civil re-establishment and the post of civil governor are left unaltered for the present. Three of these will be allotted to the province of Quebec of which it is expected two will very shortly be filled. It is intended that the portfolio of the interior shall go to the province of Saskatchewan.

Hon. Dr. Patterson will be acting minister of marine and fisheries; Hon. R. Bennett will be acting minister of the interior; Hon. Dr. Morgan and health and soldiers' civil re-establishment, and Sir Henry Drayton of immigration and colonization.

Dr. J. L. Chabot, of Ottawa, will be acting prime minister.

In the absence of Mr. Meighen during the course of the campaign, Sir Henry Drayton will be acting prime minister.

OCTOBER FIFTH PROPOSED DATE 'EMPIRE PARLEY'

London.—Premier Baldwin told the House of Commons that the proposed date of the forthcoming Imperial Conference was October 5.

Questions regarding the subjects to be discussed at the conference, he said it had been agreed that the agenda should include a general review of the policy of defence and the questions arising from it. The conference would consider the development of systems of communications and relations between the governments of the empire on matters of common concern.

Premier Baldwin said that the following would be the chief economic questions on the agenda of the Imperial Conference:

1. Overseas settlement.
2. A general review of inter-imperial trade, present and future, including a discussion of the work of the imperial economic committee and the position of the empire marketing board.
3. Imperial communications, including the work of the imperial shipping committee and discussion of the question of commercial air services.
4. Research.
5. Exhibition within the empire of empire-produced motion picture films.
6. The question of securing an agreement regarding the liability of state enterprises to taxation.

Attempt To Swim Channel

Birmingham Swimmer Obligated to Abandon Contest After Nine Hours in the Water.

Dover, Eng.—The English Channel has turned back the first of its would-be conquerors this season.

The attempt was made by Frank Perks, a well-known Birmingham swimmer. Perks started from the French side at midnight under apparently favorable conditions. A heavy northeasterly wind sprang up, however, raising a choppy sea. Fog also added to the swimmer's difficulties and he was obliged to abandon the attempt after nine hours in the water.

Celebrate Bastille Day

Paris.—France's national holiday was marked by the greatest Bastille Day parade in recent years, with the Spanish dictator, General Primo de Rivera, and the Sultan of Morocco, Mulai Youssef, as guests of honor. Communist elements seized the occasion for a demonstration, and 20 persons, including M. Joly, a member of the municipal council, were arrested for joining at the salute when he drove up with President Doumergue to review the troops.

Would Study U. S. Methods

London.—The Daily Mail says there has been discussion in ministerial circles of the desirability of sending a commission to the United States to study the methods whereby high wages are earned there. The mission would be similar in character to that recently sent by The Mail. The paper says no decision has been made but if in-qualified peace is restored in Great Britain such a commission probably will be sent in the fall.

Prohibition Army

Washington.—Organization of prohibition "saps" army is being formed with the leading officers for enlistment of 150 new men for New York and 15 for Los Angeles. The additional forces, part of the 906 new men authorized by Congress at the request of Assistant Secretary Andrews, will be put into action as soon as possible.

Will Stop Contests

Winnipeg.—Editors of the O.B.U. Bulletin, the Referee and the Guardsman pleaded guilty in the city police court to charges of conducting common betting houses in connection with publication of coupon papers and were given two years suspended sentences. Sentences were suspended on the understanding that they would discontinue the contests.

May Prosecute Officials

Vancouver.—Whether the officials of the C.P.R. should be prosecuted for alleged failure to comply with the railway board's grain rate equalization order is to be determined by the full board upon the return to Ottawa of the three commissioners now nearing completion of their western tour.

Edmonton Exhibition

Edmonton.—All attendance records for the Edmonton exhibition were shattered when 32,181 people turned out for children's day at the fair. The previous high record was 27,823, set last year. Ideal weather conditions prevailed.

THURSDAY, JULY 22, 1926

Organization and Progress.

Organization can be either a benefit or a detriment. There is such a thing as "over-organization" afflicting a community. But in this day and age the projects that have the greatest chance of realization are supported by organized efforts. The Government itself is a result of organization. In fact there could be no schools, no churches, no cities, without some kind of organization. Even home life is a by-product.

The great danger in organization is that of stifling individuality and preventing democracy of thought. An organization maintains its highest ideal when, instead of using its power to crush the right of private opinion, it enables private opinion to be asserted and multiplied and affords a means through which individual ideas can be put into action. An organization that does not and will not preserve and give freedom to this democracy of thought does not deserve to function and eventually will die of its own cumbersome weight.

Millions for the Public Welfare.

When a man makes money in legitimate business he necessarily renders service according to the accepted standards of financial success. When he shares his profits by charitable acts and through philanthropic institutions he has rendered a double service.

To the long list of wealthy benefactors is added the name of Sebastian S. Kresge, who has announced a donation in the staggering sum of \$28,000,000 to be used in research and social service.

There are those who discredit benefactions sponsored by great wealth. But so long as the system of private capital remains there will be multi-millionaires; and the people may as well get some of their money back through the donation route.

The only thing a woman can't tell is what another woman drives is going to do next.

Railroads use the block system for safety, while many motorists use the blockhead system at the crossings.

Speaking of deportations, why not deport a lot of these gentlemen who are always saying business is bad.

Maybe the reason a holiday seems like Sunday is because on such a day people don't go to church.

Another evidence of evolution is the standing army getting to be the flying squadron.

Many men are living under the shadow of the family tree.

The oldest established firm on earth is Profit and Loss.

Many appointments turn out dis-appointments.

Is the rising generation failing?

Millions Are Lost Annually In The Western Provinces Through Lack of Research Work

The lamentably apathetic attitude of this country toward scientific research is frequently pointed out. Lack of necessary research assistance for industry is a standing subject with the Canadian Manufacturers' Association. It was referred to again at the recent annual convention. Men who understand how wealth is being created and employment is being provided in other countries, and the handicap under which Canada is laboring by comparison, cry out for an awakening which does not come. We are so busy cursing little things that we fail to appreciate the large things, a solution of which would wipe out many of the smaller difficulties, says the Toronto Globe.

It might amuse even the Canadian Manufacturers' Association to hear Dr. H. M. Tully say that such an organization as a department of science, industry and commerce "could in a few years be made to mean far more to industry than all the petty tariff changes about which there is so much agitation." These words are being put in an address which is published in the Toronto Board of Trade Journal. They emphasize what he regards as the greatest immediate problem of the subjects. It is quite natural that, as president of the Advisory Council on Scientific and Industrial Research, he should be partial to that organization, but his arguments are highly convincing.

We are lamenting the departure of university trained men from Canada. Many of them have been drafted by other countries spending millions of dollars annually on research work while we spend not more than a quarter of a million. The field awaits them at home to their own profit and that of the country, but we do not provide it. There are scores of questions demanding solution, having to do with industry, agriculture and natural resources, requiring the employment of specialists, and each of them offers a potential return to the country of many millions of dollars a year. Canada is losing in letting the intelligence and producing ability of these men go elsewhere, but is losing infinitely more in failing to grasp the opportunities which would keep them here.

It is a typical case, as Dr. Tully points out, that more time is spent in giving the expenditure of \$5,000,000 on the Hudson Bay Railway than on the elimination of wheat rust in the west, yet during the last eight years Manitoba and Saskatchewan have lost \$25,000,000 annually through this blight. And when an expert in pathological work was required to study the subject the salary offered was \$2,700. During the past four years the country has paid out \$2,600,000 for cattle slaughtered because of tuberculosis trouble, yet the country is not willing to pay for research to wipe out the malady.

The discovery of Manitoba wheat has already been worth \$500,000,000 to Western Canada. The separation of the blight from the tar sands or Northern Alberta has been worth millions of dollars so far, and will eventually run into wealth which cannot at present be estimated. These matters are only illustrative of what can be done in industry as well as with regard to natural resources. Research made Germany first and then the United States industrial leaders. Britain is now spending \$5,000,000 a year in learning the secrets which research work will disclose. The United States is spending much more to continue its development. But Canada is almost hopelessly immobile.

We mourn about our taxes and our debt, and this is Dr. Tully's reply: "I say to you that if it would throw on the untold of pessimism and the infernal complex which has possessed us, and risk the use of the train and reliable intelligence of our own people, in one generation we would add to the national assets of our common country the equivalent of our national debt."

Optimism, energy and determination to submerge minor things in a practical working out of the greater problems are all that Canada needs.

France established its metric system of measures in 1795.

Co-operative Livestock Marketing

Taking Necessary Steps to Form Organization in Manitoba

Following the inter-provincial conference on co-operative livestock marketing at Regina, held a short time ago, the United Farmers of Manitoba have taken steps to bring about the formation of a provincial organization for co-operative livestock marketing similar to those already established under way in Alberta and Saskatchewan. At the meeting of the central board of the association on June 17, it was decided to call a meeting to be held in Winnipeg on August 5, of representatives of the U.F.M. locals which are co-operatively shipping and of organized shipping associations in Manitoba. This meeting will consider the question of getting co-operative livestock marketing in Manitoba on a contract basis. Several U.F.M. locals and associations have already either established or taken steps to establish the use of the contract in their own locals, and the idea of making use of the contract plan is gaining favor in Manitoba, as has already been the case in the other provinces.

At the Regina conference it was arranged to establish an inter-provincial committee on co-operative livestock marketing, one representative to be appointed from each province. Mr. A. M. Poole, president of the United Farmers of Manitoba, has been appointed pro tem. to represent Manitoba on that committee. He will act until the meeting of shipping association representatives on August 5 is held, and that body will be asked to select the representative to act after that date.

Canadian Seed Growers

To Enlarge Scope By Growing Certified Vegetable Seed

Plans have been made by the Canadian Seed Growers' to enlarge the scope of the association in the growing of certified vegetable seeds. The horticultural committee has placed seventy varieties of vegetables upon the eligible list, and elite stocks of foundation seed will be distributed among several of the Dominion experimental farms for increase and from there they will be placed in the hands of the growers.

Hard On Golfers Blasphemy, cursing and using "over-vigorous language" in the streets and public places, including golf courses, in Ontario, Italy is made an offence under a new municipal ordinance. A fine from \$5 to 200 lire may be levied for each offence.

"John and Phyllis seem to be pretty thick, don't they?" "Yes—both of them!"

Over Half of World's Wheat Exported Made by Canada in Period Under Review
Over one-half of the wheat exports of the principal wheat exporting countries of the world during the period from August 1, 1925, to February 28, 1926, was made by Canada. According to returns received by the bureau of statistics, wheat exports in the period under review totalled 318,874,300 bushels and of this amount Canada shipped 192,152,800 bushels. In the same period last year exports of wheat from Canada amounted to only 195,187,000 bushels.

Ask For Government Subsidy

Best Sugar Industry For B.C. Is Proposed

Establishment of sugar beet industry in British Columbia will be undertaken if the Provincial Government will subsidize the production of sugar at the rate of 450,000 a year, at least, west of a Vancouver syndicate, informed the cabinet. The proposition calls for a factory at New Westminster to cost about \$1,250,000, and capable of handling one thousand tons of beets a day. The subsidy asked of the government would amount to one-half cent a pound on all sugar produced up to ten million pounds.

U. S. Crops Below Average

During its forecast on conditions on July 7, the United States department of agriculture established the prospective harvest of important farm crops, declaring the composite condition of all crops was 64 per cent below the average July condition during the last ten years. The forecast included, in bushels, corn, 2,666,788,000; wheat, 677,742,000; spring wheat, 199,595,000; and oats, 1,324,260,000.

A rule may work both ways and still be a poor one.

Demand For Poultry

Active Market For Canadian and American Dressed Poultry in Britain

There has been an active demand in the Liverpool district for Canadian and American dressed poultry during the present importing season, which will soon be drawing to a close, writes Trade Commissioner Harry A. Scott, Liverpool, in the forthcoming issue of the Commercial Intelligence Journal. The anticipated supplies from Russia are not forthcoming, and shipments from France, Austria, and Hungary have been light. The season for imported poultry tends to begin later in the year. Although compliments were considered by importers as usual during the winter months, the actual marketing of American and Canadian poultry really commenced this year around the end of March, and it is anticipated that deliveries may continue well into July. By far the largest proportion of imports have come from the United States.

Cattle Shipments Abroad

Falling Off in Exports of Cattle To Great Britain

There has been a distinct falling off in cattle exports to the United Kingdom. A few weeks ago the total exports for 1925 stood at a figure nearly 10,000 greater than for the corresponding period of 1925. Today the total for 1925 is slightly less than 4,000 greater.

The explanation in part is that there have been outbreaks of foot and mouth disease in the United Kingdom and Scotland, which have impeded the movement of cattle.

The latest figures available are for the week ended July 1, 1926. The shipments for the week totalled 1,575 head, bringing the total for the year up to date to 46,910 head in comparison with 42,102 for the corresponding period of last year, and 35,529 for 1921.

Grain Shipped West

Record Grain Movement Through the Port of Vancouver

Grain totalling 512,123,283 bushels was exported through the port of Vancouver during the period from August 1, 1925, to June 31, 1926. Approximately 30,000,000 of this total was shipped to the United Kingdom and 20,000,000 to the Orient. The movement so far this year is greater in volume than it has been for some time in the past. The figures of the grain movement through this port for the 1925-1926 season are expected to constitute a new record.

"Every community has at least one no-account man who can always get somebody to sign his note."

World's Record

Established By Cow

Four-Year-Old Jersey Cow in British Columbia Tops the Record
Pretoria Oxford Janet, four-year-old Jersey cow, owned by Foster Whitaker, of Rosedale Ranch near Armstrong, B.C., recently established an unprecedented test, a new world's record for class for milk and butter production. Her record for 205 days was 14,935.2 pounds of milk and 872 pounds of butterfat. This Okanagan Valley cow has not only beaten the record in the four-year-old class in which she was running the test, but she has also passed the record of five-year-old Jersey cows in this particular and has topped the record for actual milk production in this breed.

Don Widespread Service Cross

The homing pigeon's value as a messenger was recognized by military authorities during the World War. Much has been written of "Chr. Ami", a homing pigeon, which with one leg off, carried the message that saved a lost battalion from annihilation and was afterwards awarded the distinguished service cross. Over 200,000 birds were used during the war. The "racehorse of the air" has its commercial and military value, as well as its sportive attraction.

Believes That Next Great War Will Be Fought In The Air And Will Be Decided Quickly

Control Cabbage Worm

The Most Destructive Insect Enemy Of Cabbage Crops

The common cabbage worm, the most destructive insect enemy of cabbage and related crops, is best controlled by spraying with lead arsenate or calcium arsenate. Early in the season the worm attacks the cabbage, riddling the outer leaves as it goes, frequently feeding within the immature buds, which are rendered unfit for food. Sometimes it cuts the "bud" from the young plant, thus preventing development of the head.

Arsenic poisons may be applied in dust form rather than as a spray by mixing the powder with hydrated air-slaked lime, lead plaster, dusting sulphur or cheap, light, finely pulverized material which will adhere to the cabbage leaves. Although dusts are more easily and quickly applied than sprays, they do not always distribute the poison as evenly, and, unless the dusting is done when the plants are wet, they do not stick as well.

Many Hollanders Coming

Dutch Farmers Are Attracted By The Possibilities in Canada

Canada as the future home of Dutch farmers who desire to emigrate from the native land is now attracting a great deal of attention in the Netherlands according to J. A. Hartland, who is now in Canada for the purpose of taking a survey of conditions as they affect his people. Mr. Hartland is managing director of the Central Emigration Foundation of Holland, an organization of semi-official character which provides for the intelligent emigration of its people and he has come to Canada to see conditions for himself. In this connection he will visit the major communities as possible, which are likely to provide suitable locations for Dutch farmers, his itinerary including a comprehensive tour of territory along Canadian National lines in Western Canada.

Dates Of Cutting Rusted Wheat

In Ordinary Seasons Early Cutting Found To Be Detrimental

The Brandon, Manitoba, experimental farm has during the last three years carried on experiments to determine the effect of premature harvesting of rusted wheat on the yield, quality and impress of the grain. The experiments, which are described in the report of the superintendent, indicate that in ordinary seasons early cutting is distinctly detrimental, while during even severe rust epidemics, nothing is gained by cutting earlier than the prime dough stage. Ordinarily it is good practice to begin cutting before the grain is ripe on account of the large average under crop. This is particularly true when the wheat stem variety is prevalent and when the varieties of wheat grown are prone to shatter.

World's Record

Sir Adolph Tuck Dead

Sir Adolph Tuck, who introduced the picture postcard into Great Britain, died in London recently.

Goodness isn't always admirable. Some men are good for the same reason that a snail never runs amuck.

The London Spectator says there is extreme uncertainty that there will be much room for latitude in future relations between Canada and Britain in the event of war. Mr. H. Arthur Mighen went even further than Mr. H. M. MacKenzie King, the Spectator continues, in demanding that the ratification of Canada's participation should come from a new parliament, especially elected for the purpose.

It is generally assumed that in a future war the first blows would be struck from the air, and possibly the first few hours would be almost decisive, the Spectator continues. He says on the part of the Dominion is joining the war because parliament had to ratify the decision might be fatal.

"However, we know perfectly well that if Britain went to war in a just cause, which concerned the whole empire, it would be impossible to hold the Canadian people back," the Spectator says. "That certainly transcends all difficulties of form and method, but we trust that whatever Canadian Government may be in power in the autumn may be able to lay a clear case for discussion of these aspects of the Canadian situation before the imperial conference."

The Saturday Review says that the real trouble is that in the development of the political life of Canada no party has a program that can cope with the demands of the continually-changing situation. The greatest need of Canada, according to the Review, is a policy which shall defend its independence and ambition in world and imperial affairs.

"For the present, and probably for some considerable time to come, Canada is likely to be awayed this way and that over minor issues which are administrative rather than political questions," the Review says.

Lawns For Farm Homes

Valuable Hints For Cultivating Lawns On The Prairies

The growing of lawns on the prairies is particularly difficult because of the lack of sufficient moisture in most seasons. Several grasses and mixtures have been tried out at the Dominion experimental station at Brandon, and the most satisfactory is a mixture of 15 pounds of Kentucky Blue Grass and one pound of White clover seed, sown at the rate of one pound to 500 square feet. Preparation for the lawn must begin the year before, and perhaps the most satisfactory method is to give it a heavy coating of manure and plant potatoes.

This enriches the soil, cleans it of weeds and leaves the soil in splendid physical condition. After such preparation the soil should be raked level and firm. If this is done in the fall, an opportunity is afforded to see any depression that may develop during the winter. In the spring as early as the ground can be worked, rake and firm the soil, scatter the seed and rake it in the roll it. Be careful in sowing and raking to spread the seed evenly. Avoid using the lawn as much as possible the first season, and clip frequently. Running water is available the condition of the lawn can be much improved by watering with a lawn sprinkler weekly.

Farmers Well Satisfied

Prospects of Large Yield and Good Prices For Wheat

In a recent statement on the crop outlook in Western Canada, the "New West Farmer," published in Winnipeg, states that farmers in the three prairie provinces—Manitoba, Saskatchewan and Alberta—are for two important reasons unusually optimistic and well satisfied with the prospects. They see prospects of a profitable crop; they are satisfied that the pool marketing of wheat means a higher price. Approximately seventy-five per cent of the 1925 wheat crop was marketed by the Canadian Wheat Pool, the largest co-operative organization of its kind in the world. Its membership now totals 125,000 actual farmers in Manitoba, Saskatchewan and Alberta.

Gum Is Dental Necessity

Classification of chewing gum has been changed in the official customs list from "confectionery" to "gum." Experts have agreed that the chewing gum is a dental necessity.

To Mix Gas and Alcohol

The United States Government is now going to put gasoline into deodorized alcohol, expecting bootleggers will have a much harder time to make their wares from it.

Mayor Martin of Montreal Goes West

His Honor Melville Martin, Mayor of Montreal, with the Lady Mayresses on his right, photographed in the Windsor Street station, Montreal, just prior to his departure for the scenic Centre of the West. A hundred representative Quebec and Montreal citizens took the three weeks' trip to Victoria and back, and they included priests, university professors, doctors, lawyers and judges. The success of the initial trip last year led to its continuance again this year.

WORLD HAPPENINGS
BRIEFLY TOLD

The third biennial convention of the World's Federation of Education Societies will meet in Toronto, Aug. 4 to 10, 1927.

Premier Taschereau, of Quebec, declared there will be no provincial elections this year. "The people of Canada have enough to consider and solve already," he remarked.

Films of British cabinet members are to be sent to British war veterans, where the pictures of Premier Baldwin, Foreign Secretary Chamberlain and others will be offered as programme features.

Professional mendicants, of Hamilton, who establish themselves on the downtown streets and seek alms by playing various instruments or selling small wares are to be ordered off the streets by the city of police.

Hon. W. G. Ormsby Gore, under-secretary of state for the dominions, states that he is not aware of any change being made in the arrangements for the imperial conference owing to the situation in Canada.

Arnaldo Mussolini, brother of Benito's premier, has challenged General Caviglia to a duel. The challenge follows critical comments by the general, who is a well-known leader of the opposition to the Fascist Government, on an article written by the premier's brother.

Less than one per cent of the cattle tested in the tuberculosis free area, which is being established in Saskatchewan in the last Mountain district, have reacted to the test so far, and Hon. C. M. Hamilton, minister of agriculture for the province, is highly gratified at the splendid showing of the cattle in this territory.

The minimum demand for agricultural machinery in Russia for the current year is estimated at 120,135 loom pre-war rubles, according to a statement in the forthcoming issue of the Commercial Intelligence Journal. Three large steamship operators by the United American Lines—the Resolute, Reliance and Cleveland—have been sold to the Hamburg-American Line in exchange for a financial interest in the German company.

Russians To Colonize Wrangel

Have Renamed This Barren Waste As Lenin Miroff

A Russian expedition is on its way to colonize Wrangel Island in the Arctic Ocean, North of Siberia, and rename it Lenin Miroff.

The expedition, in a Russian icebreaker, the Krasny Otkh (Red Ocean) was scheduled to leave East Cape, Siberia, on the west side of Bering Straits, June 25 for the island, or Miroff, rediscovered in memory of Nicholas Lenin, considered the creator of Soviet Russia.

To Wrangel Island, for whose exploration and colonization loss of 18 lives in three expeditions has been listed in 13 years, the Krasny Otkh was taking 20 families of Chukchees (Siberian Eskimos) 100 dogs, and 25 reindeer. Equipment of the colony includes 2,000 reindeer pelts for clothing, and six large Eskimo skin boats. Provisions on the Red Ocean for Lenin Miroff were calculated to last three years. Those familiar with the survey of Wrangel Island by Lenin Miroff pronounce it uninhabitable. This because of cold, inaccessibility, absence of fuel and extreme scarcity of food.

Royalty Engages In Business

Russian Court Women Meet With Success In Commerce

The manner in which ladies of the Russian court have fitted themselves into the life of commerce in Paris is a matter of much comment in the French press.

The Grand Duchess Marie went to work as an ordinary woman in a French embroidery house to learn her chosen profession, and now employs dozens of her compatriots in her own place. In another dressmaking establishment, Princess Obolenski is the cashier and "bookkeeper." Princess Troubetskoi is the general manager of the cutting room, and Mlle. Anni-enko has charge of fittings.

New Settlers Satisfied In Alberta

More than 500 families have been located in Alberta in the last year under the 3,000-family scheme, according to W. S. Woods, of the land settlement board.

Mr. Woods states that the newcomers are doing splendidly and are well satisfied with their present conditions and their prospects.

The average man loses five and a half days a year through illness between the ages of twenty and thirty; twenty days between the ages of fifty and sixty.

W. N. U. 1628

French War Debt

British-France Agreement Is Wide In Scope

An agreement was signed recently for the funding of the French war debt to Great Britain after a conference between Winston Churchill, chancellor of the British exchequer, and Joseph Caillaux, French minister of finance, and a subsequent discussion with treasury officials to draft the terms of the agreement.

The settlement covers not only the French war debt, but virtually all the outstanding accounts between Great Britain and France. Announcement of this effect was made in the House of Commons by Mr. Hon. Winston Churchill, chancellor of the exchequer. The French payments, he said, would be £4,000,000, £5,000,000, £3,000,000 and £10,000,000, rising to £12,500,000 annually, the last named figure being reached in 1930.

From 1930 to 1936, the payment would be £12,500,000 annually, rising to £14,000,000 for the final 31 years. M. Caillaux expressed himself as greatly pleased with his reception in London and especially with Mr. Churchill's hospitality.

The full payment terms are £12,500,000 for 62 years and France will not be required to pay the deficiency of these five years of partial moratorium until after a long period, probably 25 or 30 years. The £20,000,000 of French gold now held in the Bank of England as a pledge, will henceforth be regarded as part of the reserve of the Bank of France. There is also a safeguarding clause to protect France's interests should Germany default in her reparations payments.

France also is granted a transfer clause, whereby, in the event her large payment to Britain imperils the stability of the franc, the annual payment will be postponed.

France also is granted a transfer clause, whereby, in the event her large payment to Britain imperils the stability of the franc, the annual payment will be postponed.

Japanese Nobleman
Passes Through Canada

The Right Honorable Viscount Keimatsu Matsudaira, attache to His Imperial Highness Prince Chichibu, second son of the Emperor of Japan, has just gone across Canada after landing at Quebec on the S.S. Empress of France and from Montreal, Windsor station, where he was photographed, by Trans-Canada Limited to Vancouver whence he will sail for Yokohama for a few months vacation with his family. The Viscount was educated at Balliol College, Oxford, and stated that Prince Chichibu was also entering Oxford this next term and will occupy the rooms at Magdalen College formerly in use by the Prince of Wales. He said that Anglo-Japanese relations were of the most cordial description especially those obtaining between the respective royal families of the two countries. While this was the third time he had passed through the Dominion he had never been able to stay here for any length of time and looked forward to the day when he would sample some of the hunting and fishing facilities of the country, especially British Columbia which is within a twenty-day return trip of Japan. The Viscount will return through Canada to England in the fall.

Requests for work over are said to have been received from Africa, India and Australia. One man, in British West Africa, wrote six firms in Germany, enclosing a pound note to each as a sample and ordering each of them to "reproduce" it. He directed that the counterfeit notes be shipped inside the letters over to the Reichsbank which notified the Bank of England.

The British Government, through the German embassy, thanked the German firms for the exposure and sent a reward of 50 pounds.

Canada Wins Kolopole Cup

Canadian Marksmen Defeated Teams to Gain Trophy

Canada, for the second consecutive year, won the Imperial Rifle Cup, one of the greatest service rifle matches at Biele. The Canada marksmen defeated picked teams of eight from the Mother Country, India, Japan, Germany and the Gold Coast to hold the trophy by six shots.

The team selected from Canada's Biele competition, and including Lieut. Desmond Burke, of Ottawa, King's prize winner of two years ago, led by ten points after the first round of ten shots at 300 yards. They increased this lead to 14 points at the 500-yard distance and though it was cut down to a point at the final shot at 600 yards, still Russian court women have fitted themselves into the life of commerce in Paris is a matter of much comment in the French press.

The Grand Duchess Marie went to work as an ordinary woman in a French embroidery house to learn her chosen profession, and now employs dozens of her compatriots in her own place. In another dressmaking establishment, Princess Obolenski is the cashier and "bookkeeper." Princess Troubetskoi is the general manager of the cutting room, and Mlle. Anni-enko has charge of fittings.

Missing Persons Bureau of New York Police Department Handles Difficult Cases

A single magician, before putting on the familiar "disappearing lady" act, would do well to comb his audience for members of the missing persons bureau of the New York police department.

During the past year this bureau has had to deal with 25,000 real life disappearances, far more baffling than those from the magician's trick cabinet. Since the bureau was opened in 1917 more than 120,000 such cases have been handled. And more than 99 per cent of the vanished persons have been found.

When someone "drops out of sight," as the familiar "disappearing lady" act, would do well to comb his audience for members of the missing persons bureau of the New York police department.

OUR CROSSWORD PUZZLE

- Horizontal
- 1—Pasted, as a shoe.
 - 2—A coal scuttle.
 - 3—Noblemen's landed estate.
 - 12—Disclosed to view.
 - 14—Pertaining to the moon.
 - 16—Female of the horse.
 - 17—Wagon.
 - 18—Beckon.
 - 19—At this moment.
 - 21—Pivotal point.
 - 22—Extended area of land.
 - 25—Small valley.
 - 26—Novel.
 - 28—Expression of present.
 - 29—Wall east.
 - 31—Roguish.
 - 32—Water from clouds.
 - 36—Signify.
 - 38—Whiten.
 - 42—Bustle.
 - 43—Many.
 - 44—Spawn of fish.
 - 45—Cries like a sheep.
 - 47—Patched board.
 - 48—To net.
 - 51—Violent anger.
 - 52—Article of furniture.
 - 54—Lyric poem.
- Vertical
- 1—Pertaining to the lobe.
 - 2—Highest point.
 - 3—Oil derived from whales.
 - 4—Hill or an em.
 - 5—Shout of triumph.
 - 6—T-pon.
 - 7—One who dances.
 - 9—Part of "to be."
 - 10—A Moslem ruler.
 - 11—Spoken.
 - 12—Regenerate.
 - 14—Parcel of land.
 - 15—Decay.
 - 22—Settle, station.
- 24—Forever.
- 25—Hill of loose sand.
- 27—Wrenched.
- 28—Cultivation.
- 29—Kitchen utensil.
- 32—Plant of the mustard family.
- 34—Manila hemp.
- 35—Common rodent.
- 36—Queen of the fairies.
- 37—Might of the foot.
- 38—Put away.
- 40—Skull.
- 41—Female fowl.
- 42—So be it.
- 43—Torn.
- 45—Deference.
- 51—Time.
- 52—Calcareous secretion forming reefs.
- 53—Male obscure.
- 55—First note of the scale.
- 57—Belled.
- 58—Check.
- 60—Evil.
- 61—French metric measure.
- 62—Obtained.
- 64—Unknown.
- 70—Perform.
- 72—Eruption sun-pod.
- 73—State of dition scale.

SUNDAY SCHOOL LESSON

JULY 25

THE PASSOVER

Golden Text: Our passover also has been sacrificed, says Christ I. Corinthians 5:7.

Lesson: Exodus 11:1-12:36.

Devotional Reading: Psalm 111:7.

Explanations and Comments

Instructed As To the Instituting of the Passover, verses 1-11:—In the words of Rabbi Wise, it is the natal day of the first independent nation constituted upon the principles of liberty and equality. It was fitting that the new era should be dated from that deliverance. To Moses and Aaron came the assurance that God would change the calendar to commemorate the great deliverance he would accomplish for them. "This month shall be unto you the beginning of months; it shall be the first month of the year to you." This month was the month Abib, which corresponded to the end of March and the beginning of April. The month Tishri, the month of harvest, had been the beginning of the year. After the Exile the month Abib was known by the Babylonian name of Nisan. It was the month of their birth as a nation, and therefore it was fitting that it should be the beginning of the year. "The later Jews had a two fold commemoration of the year—the ecclesiastical year, which began in autumn, in the seventh month of the year, and the civil year, which properly began with the summer equinox, when the Nile commenced to rise" (Eidersheim).

Gets Plans Of Crow Trap

Picnic Sandwiches

Sandwiches without mustard are insipid. Open them and spread Keen's Mustard on the filling and—what a difference!

Mustard is always at its best when freshly mixed with cold water.

THE STORY THIS FAR

Joanna, a modern, pretty, shop girl, to have a million dollars to spend. Graydon, her employer, tells her, there are no "conditions." She is not even to know the name of her benefactor. Nothing more than this can be learned from banker Eggleston, nor his suave, anti-snobish nephew who helps him write her first check and tells her that he intends to make love to her. Drawn by the sudden flood of undreamed-of wealth, crushed by the fact that her shop girl friends will not believe she earned it honestly she is confronted by John—her childhood sweetheart. He also scorns her title, snubs her, and she is left alone. Joanna crushed sinks to the floor. Later she finds that Mrs. Adams, the next day is to be dedicated to George, a shop girl companion. They plan to spend some of the fortune for her.

CHAPTER IX.—(Continued).

"Tinks," she confessed, laughing to him. "I could hold my own with George—he's been rather a chum, you know—or with any of the rest. If they had somebody I wanted I usually lauded them if I liked, and they had to start early to get anyone away from me—but now, well, I'm in for new competition now."

A woman, a young woman, whose smooth black hair hung to a beautifully formed head, a woman with smooth black eyes that suggested with flowers of night, hovered close to the table and paused. An observer would have thought that she had stopped, and was about to speak, or to say one of the other of the pair at the table. But she moved on, her slender hand fluttering at her escort's sleeve. Only one who observed very closely would have detected the almost imperceptible sign that Brandon paused to her with a gesture of his finger. Joanna was not even conscious of the little tableau of an instant. Brandon kept her attention.

"You think then, that your problems will have to do mostly with . . . what you are calling competition from your own sex? That implies that your plans, when formed, will be a conquest of men?" Joanna's brow wrinkled, and her eyes sounded as if it admitted something I shouldn't. "Won't you tell me what?" "But you haven't," he protested, earnestly. "What else should there be for you to plan—but to bring the

DOCTOR ADVISED OPERATION FOR MRS. PENN

She Escaped It by Taking Lydia E. Pinkham's Vegetable Compound

Windsor, Ont.—"After the birth of my first baby I was very much run down in health and the doctor said I must have an operation as I was suffering from a displacement. A friend wanted me to try your medicine—Lydia E. Pinkham's Vegetable Compound—and I took it steadily for a year. During this time I was carrying my second baby and I felt real well all the time and did not have hard confinement. I feel sure the Vegetable Compound did me a lot of good, and all my people do, too."

Mrs. Corbin Relieved from Pain. "I had pains across my back and in my side for two years after my first baby was born. My mother had taken Lydia E. Pinkham's Vegetable Compound and I tried it and the pains all left me. I have a family of three children now, and the medicine helped me during the months before my last birth. I recommend it to my friends."—Mrs. CARL W. CORBIN, Main Street, Stewiacke, Nova Scotia.

W. N. U. 1628

Brandon made his presentations easily. Joanna caught the softness of a foreign sounding name, and heard that Brandon called the stranger, "Yonne." Despite the protests, Joanna acquiesced, but the meeting had been arranged.

CHAPTER X.

Joanna Meets Another Sultor

In the sudden cascade of small talk with which the newcomers were settled into their places at the table by waiters, each more exorable than the other, Joanna was vaguely uncomfortable—out of her accustomed depths. Her store of smart things seemed utterly inadequate to the easy greetings and perflage. Within her own experiences, introductory conversations took one or the other of two courses—herself, or "himself." She was never concerned with other women, whether they liked her or not. Not the one who came across her horizon. . . . They were all like her, merely rivals, equipped as she was, with the common weapons of a modern flapperhood—lips always sharp for kisses, a ready wisdom that guarded those lips when occasions arose, clothes that added to the lure of her and a skill at defense or attack.

In Joanna's scheme of things any girl, these days, must be ready instantly to take the defense or launch an attack—one or the other was certain to be necessary. She and George got along splendidly in the induction of all new acquaintances among the available supply of properly managed, good-looking young chaps with new places to go. She considered now, when she stole a glance at the man who had come up with the woman with the black hair, that by the time he had said, "How do you do?" to George, that little lady would have blithely inquired of him: "Well, now, look his here: Why do you think you amount to so much?" And she reflected that, this time, George would get the worst of it in any such encounter.

As she had concluded a moment before that her first sight of him, Kenneth—Tinks, Brandon had called him—was made in the same mood as Brandon, but there was a difference. She disliked Brandon, because she feared that he was to have some tragic influence over her and her mysterious future, and she would not be little. He would not be the sort who would plot for some small favor. If he should want to amuse himself with the woman, he would aim at her soul. She knew the kind—and the danger they embodied.

(To be continued)

Good Paying Investment

Britain Has Large Revenue From Shares in Suez Canal

The Empire of France was one of the first passengers taken through the Suez Canal when it was officially opened to traffic in 1869. She was aboard the first vessel passed through. During the same voyage the shares in the Suez Canal which had been held by the Khedive of Egypt, on November 25, 1875, was considered his boldest and timeliest stroke. By this move Great Britain's position in Egypt and the Near East was greatly strengthened. Not only was France curbed but the British nation received an investment that has more than quadrupled in capital value during the fifty years that have elapsed.

Sewing machines were found to be the most popular labor-saving devices in a typical country district surveyed in Ohio. Eighty-eight out of a hundred homes owned them.

Lake Superior, the largest expanse of fresh water in the world, has an area of 31,300 square miles.

Of the 8,788,500 people in Canada, 1,868,900 are of British stock—fifty-five per cent.

She realized that Brandon had been leading up to this—and she was uneasy before a doubt that he had expected to plant in her mind. Would John fit in? Now! Into this gay world of pleasure, joy, unrestrained to which she was being admitted? Could she, with him holding up for her the examples of his own old fashioned ideals, exact from her own opportunities the full value of the only thing she knew to be worth while? She hated Brandon, fiercely, she concluded, for conjuring up the doubt. And hated him for the cunning with which he had stirred it.

She was brought abruptly out of her reflections. The woman who had once before hovered at the table, had come up again. Joanna had not seen that quiet signal from Brandon's cigaret which was instantly caught by the nearby table where a woman as with her escort, a man made much after the pattern of Brandon himself. Brandon rose and greeted the newcomer. Joanna looked up at her, startled by a sleek, perfectly assembled beauty that was as pungent as the essence of some heavy perfume.

WILSON'S FLY PADS

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At All Grocers, Drugists and General Stores—10c and 25c per package.

U. S. History Re-Written

Revised Histories For Use in America. The Public Schools is making its appearance. The world war put the old school histories as out of date as a photograph with a horn. The histories, it would seem from various reviews of them we notice in the American papers, have considerably upped the old lines of antagonism. Britain comes in for more friendly attacks. The Kaiser takes fast George's place in the ducking pool. U. S. Tipton and one Hindenburg now outrank, as objects of scorn, those other Germans who drank much Christian liquor the night that Washington crossed the Delaware.

We wonder what some Anglophone newspapers think of the new histories. Perhaps they have not seen them yet, their editors being more interested in divorce, scandals, bold hair and hunch, evidences of modern civilization, than in the records of other days—Financial Post.

Historic House For U. S.

Transferring History From England to the United States

The Chantry House, Billerica, Essex, the 16th century residence of Christopher Martin, one of the leaders in the Pilgrim Fathers, has been sold in London to an American for £10,000. The house will be removed to Boston, where the Pilgrim Fathers landed, and re-erected there. The Pilgrims first assembled in this house before embarking in the Mayflower. Earlier in the year another historic English residence, Warwick Priory, was sold and shipped to an American purchaser; and Agnetrot, a 16th century Manchester house, was similarly purchased. Royton Hall, the home for more than 400 years of the Byron family, is stated to be in danger of following them, an offer having been received by its owner, Dr. J. G. Godfrey, from an American.

No child should be allowed to suffer an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves' Worm Expeller.

The Keyless Lock

Is Fitted With a Combination Like a Safe

Something new in the way of locks is the keyless lock. This invention works with a combination like that of a safe, and thus saves the carrying of a bulky key. The combination is controlled by a dial on the edge of the lock, capable of 1024 combinations of which the owner may take his choice. Since it is worked by touch the owner can, after a little practice, open it in the dark. No remedy is suggested in case the owner forgets the combination—Popular Science Monthly.

A Hard Task

The abandoned drawing-master bailed a cab at the deserted village station. When the cab came up he stood for a few minutes looking at the horse. Suddenly pointing to it, he demanded: "That?" "A horse, sir," growled the rabby. "Then rub it out and do it again, sir," said the drawing-master.

After a man secures a girl's hand he sometimes finds she has him under her thumb.

It must be hard on the fingers of mutes to crack jokes.

Hygienic Clothing

Modern Dress Tends to Lengthen the Lives of Fair Sex

After a great many people inveighing against the modern dress of women, and declaring all sorts of horrid things about short skirts, shingled heads, no corsets, etc., I happened to see an article the other day in which some kind and sympathetic gentlemen, several of them, said that the present-day dress is the most sensible that women have ever worn. In fact one authority states that when women shortened their skirts they lengthened their lives, because long skirts were so bad for them. I can't help feeling a sort of shrinking glow that women won't lengthen their lives any more if shortening skirts is the way to it. The poor little things—I mean the skirts, you know—haven't got much more than they can spare. Also I read the small amount of new garments that women wear now is conducive to health, and not as vexatious. And if men would only take example by us, and scrap half the garments they wear, they might put five years on to their lives. It is all so pleasant and satisfactory to know that we are working on the right man, isn't it? making progress—Glasgow Herald.

Hidden Beauty In An Opal

Colors in This Gem Are Said to be as Numerous as the Stars

The opal is now one of the most popular gems, and women who have always been superstitious about opals are now buying them. "People remark that there is hidden beauty in an opal," said the manager of one of the largest jewelers in London. "If you look steadily into an opal you notice that the colors are never weary, and one can almost see the internal fire. "One particular specimen of this stone which is selling well, looks almost like the eyes of a tiger. "Black opals are also very popular. These come from Ceylon. "The opal is an afternoon stone, and diamonds, pearls, and emeralds are worn in the evening. No woman who wishes to be in the height of fashion will wear an opal ring in the evening."

The Family Physician.—The good doctor is always worth his fee. But it is not always possible to get a doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, such as Dr. Thomas' Electric Oil, which is wonderfully effective in relieving rheumatic pains and healing cuts, scratches, bruises and sprains. The essence of this remedy in the family medicine chest saves many a fee.

Little Helps For This Week

Trust in the Lord with all thine heart, and lean not unto thine own understanding. Prov. III, 5.

Oh! let Thy sacred will! All Thy delight in me fulfill! Let me not think an action mine own way.

But as Thy love shall sway, Resigning up the ruler to Thy skill, —George Herbert

Our helm is given up to a better guidance than our own. The course of events is quite too strong for any helmsman; and our little wherry is taken to two by the ship of the Great Admiral, which knows the way, and has the force to draw men and states and planets to their good. —Ralph Waldo Emerson.

Delicate Instruments Have been Invented which enable an aviator to steer safely to a given point in the thickest fog.

"I hear you're moving nearer to London, McTavish. How's that?" "Ma crystal sea's na' too enough."

Canada saves twenty-seven million tons of coal a year through the use of water power, it is estimated.

Causes For Sorrow

Small Boy: "What was the name of the last station we stopped at, mother?" Mother: "I don't know. Be quiet! It's a pity you don't know, mother, because Johnnie got out of the train there."

Mindard's Liniment for Rheumatism

Alberta Lumber Production Lumber production in Alberta last year was valued at \$41,000, according to finally revised figures issued by the bureau of statistics. A total of 32,700,000 feet of lumber was cut.

Guards Flavour Of Your Meat

Strong in fibre—yet light in weight—Hercules and Ajax wrappers are exactly what your business requires. Either of these waxed papers does double duty—resisting moisture and grease—protecting the flavour of your meat. By using Appleford wraps you impress customers with your standard of cleanliness. You save money because no inside waxed sheet is required. Ask for our prices.

The Study of Stringed Instruments as a Power in Education

The study of a stringed instrument may be, and, when properly directed, is an educational force, the value of which has perhaps not yet been fully realized by the leading educationalists. It is more apparent to those who instruct students in the use of these instruments and have opportunities of watching for a few years the development of character under this influence. Many other influences are of course at work simultaneously, but the teacher with psychological insight does not confuse them. Although there are now signs of a reawakening at regards the study of the violin and its kindred instruments the (viola and 'cello) it has not yet become sufficiently popular and widespread for its influence as an educational power to be generally known and duly valued.

The musical appreciation of the last few years has done and is still doing a service of incalculable value in the world of music. Children are now taught first to understand and so to appreciate music for its own sake. The study of an instrument, as such, is a secondary matter, although where exceptional talent is discovered, specialization may begin at an early age. The educational uses of the gramophone have been discovered, and, largely by its means children are learning to know and love the great masterpieces, both classical and modern. The wireless broadcasting of music is another power in musical education, and, "wisely used" one for great good.

One might well ask, what more can be done for the musical education of our children? Let it be noted however, that all this is training in intelligent, musically listening; it is the cultivation of musical appreciation. For this let us be grateful, it is a sure foundation on which to build. Let the appreciation become deep enough and the inevitable result will be a compelling desire for practical musicianship. When we reach this stage something more is needed in training.

It is possible, indeed it is necessary, as well as easy, to train the year, that is to say, the musical intelligence of the average individual, so as to enable him to sing at sight anything singable, and to get a musician's mental grasp of the simpler forms of instrumental music from the printed page. It is easy to teach relative pitch, and possible to teach absolute pitch. This aural culture is essential but, except in a very small degree children of today are not receiving it. It must become general, and children should be taught to read music as they read books. It is not only those with exceptional natural aptitude for music to whom this is possible, with rare exceptions anyone may acquire the ability. Then what a world of beauty and joy from which most people of this country are shut out, only for the want of certain culture that every school curriculum should include. Happily we are moving in the right direction, would that the pace might be a little quicker. Appreciation, become deep enough, leads to the desire for practical musicianship.

McLaughlin-Buick shares its price with many motor cars ~ but its Value with none

Because of the great number of McLaughlin-Buicks bought each year, and because every dollar of the savings of great volume goes back into McLaughlin-Buick value, McLaughlin-Buick's moderate price buys quality.

McLaughlin-Buick can, and does, build its cars the way all motor car engineers would like to build theirs, if their volume or selling price permitted.

Only on the most expensive cars will you find chassis elements in any way comparable in cost and quality to McLaughlin-Buick's Torque Tube Drive, Triple Seated, Valve-in-Head Engine, Full Pressure Engine Lubrication, "Sealed Chassis", Controllable Beam Headlights and Mechanical Wheel Brakes.

The public want finer transportation at lower cost. And they get it in McLaughlin-Buick.

The new low GMAC financing rates are available to purchasers of McLaughlin-Buick on time.

The Better McLaughlin-Buick leads in registration all cars in its price range.
